

Università di Padova

Società Italiana di Biochimica
e Biologia Molecolare

Università di Bologna

Società Italiana di Biochimica e Biologia Molecolare
Gruppo Amine Biogene

International Congress:

***Biogenic Amines:
Biochemical, Physiological
and Clinical Aspects***

Bertinoro
(Forlì-Cesena),
ITALY

May
11 – 14, 2009

Visit:
www.ceub.it

Location of the congress: Panorama from the Rocca of Bertinoro
From this courtyard, 7 centuries ago, Dante **Alighieri** looked out at sea.

Panorama from the Rocca of Bertinoro

Monumental trap of the Rocca

The inter-religious Museum in the Rocca

Prof.A. Toninello
head of the Italian group
Biogenic Amines

The ceremony in memorial of Nello Bagni

HISTORY OF POLYAMINE RESEARCH

URIEL BACHRACH

*Hebrew University-Hadassah
Medical School
Jerusalem, Israel*

Prof U. Bachrach

HISTORY OF POLYAMINE RESEARCH. A. van Leeuwenhoek: the first observation of polyamine crystals

HISTORY OF POLYAMINE RESEARCH: research centers in Italy

HISTORY OF POLYAMINE RESEARCH

Bologna as a centre for polyamine research

**Biogenic Amines: Biochemical, Physiological and
Clinical Aspects, Bertinoro, May 11-14, 2009**

**Presentation of a picture of Nello Bagni by
Tairo Oshima, Inst. Environ. Microbiol. Kyowa-kako**

Plate in memory of Nello Bagni

Transglutaminase session: prof. R. Ientile

Transglutaminase session: prof. C. Esposito

Transglutaminase session: prof. S. Del Duca

Transglutaminase session: prof.
D.Serafini-Fracassini

Prof. K. Igarashi showing the paper -"From Bioassays to Molecular Biology: The 46 Years of a Plant Polyamine Scientist. *In Memory of Nello Bagni by his former Students and Coworkers*" in the book 'Biologically Active Amines and Related Enzymes: Biochemical, Physiological and Clinical Aspects' edited by Prof. A. Toninello (2009) Res.Signpost

The presentation of Prof P. Ruggeri

If Donatella agrees, I want to pay tribute to **Nello Bagni** in this work, firstly because I draw on researches he has conducted in the latest years on wines, but, in particular, because sicilian grapes are, in my opinion, a perfect metaphor of his intense, generous and noble nature.

Transglutaminase researchers from Bologna and Barcelona

Stefano Del Duca

Donatella Serafini-Fracassini

inmaculada Claparols

Luca Dondini

Annalisa Tassoni

Polyaminologists from Israel, UK and Sweden

Polyaminologists from Japan and Italy

Polyaminologists from Austria, Spain and Italy

Transglutaminase researchers at the dinner

Polyamine researchers of Spain, Russia and Transglutaminase students

The group of polyaminologists, the so called polyamigos
